TN295

10-Bay LED Smart Battery Charger

For 9V Li-ion Rechargeable Batteries

Please carefully read the instructions before using.

INSTRUCTION MANUAL

Cautions

- Do NOT disassemble the charger
- Do NOT mix battery chemistries, this may lead to damage and/or explosion
- Keep away from high temperatures
- For indoor use only
- Keep away from all liquids and humid environments
- May not fully charge old battery cells, cycling cells several times may improve overall performance
- Keep away from children

Features

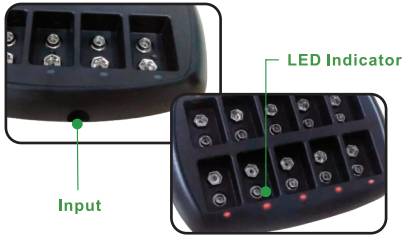
- International compatibility
- Micro-processor controls charging process
- 8 hour safety timer automatically stops charging battery
- 10 independent charging channels
- Reverse polarity protection

Operation Instructions

- Insert battery cells into charging channel(s) and connect the power adapter to outlet.
- When charging is complete, remove the batteries and unplug the charger.

LED Indications

LED Color	Status
Red	Charging
Green	Fully charged
Flashing Red	Short-circuit, reverse polarity



Specification

- Adapter Input: 100V~240V 50Hz/60Hz
  Output: 12V⎓1500mA
- Charger Input: 12V⎓1500mA
  Output: 100mA per channel
- Compatible batteries:
  100~600Ah 9V Li-ion Rechargeable Battery
